

## Working With Colors and Pattern Fills

Name - **Manas Pratim Biswas**

Roll No - **002011001025**

### Task 1

- Open the file HYDRANT.TIF file in Photoshop
- By clicking on zoom tool click on HYDRANT head to 200%
- Select Magnetic Lasso tool
- Choose select>save selection and specify the name. The selection is saved in the channels palette.
- Create new adjustment layer by choosing Layer > Adjustment
- Layer > Hue/Saturation and change the value of Hue to 57
- The initial Red color changes to Magenta
- Save the file as TASK1\_hydrant\_magenata.psd and TASK1\_hydrant\_magenata.jpg

Output Image:

## Task 2

- Choose Select > Load Selection and specify the name used earlier to save the selection
- Create new adjustment layer by choosing Layer > Adjustment
- Layer > Hue/Saturation In Hue/Saturation dialog box drag Hue slider to +102. The Magenta color changes to Green.
- Save the file as TASK2\_hydrant\_green.psd and TASK2\_hydrant\_green.jpg

Output Image:

### Task 3

- Choose Select > Load Selection and specify the name used earlier to save the selection
- Change the color to Red by setting the Hue value to -9 and Saturation value +9
- Create a new fill layer by choosing Layer > New Fill Layer > Pattern change the Blending mode to Overlay
- I chose a Grass pattern from the Patterns Palette
- Save the file as TASK3\_hydrant\_pattern.psd and TASK3\_hydrant\_pattern.jpg

Output Image:
