

WORKING WITH HISTORY

Name - **Manas Pratim Biswas**

Roll No - **002011001025**

Procedure

- Open the HISTORY.tiff image file in Photoshop
- Choose Edit > Preferences > General. Change History state to 50.
- Choose Yellow as the foreground color and Black as the background color from the toolbar.
- Choose Image > Canvas Size> Change units to pixels. Make the canvas size 1200 pixels by 600 pixels.
- Using the Elliptical Marquee tool make a small elliptical hole to the left. Fill with white using Edit > Fill > Foreground Color.
- Deselect selection. Using Rectangular Marquee draw a selection border around yellow ellipse including some black borders.
- Choose Edit > Define Pattern. Save as an Ellipse.
- Using the Rectangular Marquee tool, choose entire left black border. Choose Edit > Fill > Pattern using the earlier saved pattern name to fill.
- Duplicate the pattern to the right side using the Move tool.
- Again set the canvas setting to pixels 1200 by 600
- Using Type tool, and font style: Pierre Dingbats, Regular, 60pt, color: white. Type "I". Use the Move tool to position the star properly.
- Keeping the Type layer selected choose Layer > Rasterize > Type.
- Choose Layer > Flatten Image to convert to a single layer.
- Keep on deleting the unnecessary history pages
- Using Rectangular Marquee tool define, fill and duplicate the star pattern as done before for the rectangular pattern
- Save the file as 025_TASK8A.psd, 025_TASK8A.jpg, 025_TASK8B.psd and 025_TASK8B.jpg
