

WORKING WITH FILTERS, LIQUIFY & LAYER STYLES

Name - **Manas Pratim Biswas**

Roll No - **002011001025**

Procedure

FOR FIRE:-

- Create a new file 600 by 400 pixels.
- Set white as foreground color and black as background color
- Write word FIRE using a font closer as like in image, size 100 pt.
- Create a new layer above the text layer. Rename the new layer as Fire.
- Selecting layer Fire press COMMAND+OPTION+SHIFT+E. The selected layer is stamped with the contents of all visible layers.
- Selecting layer Fire choose Edit > Transform > Rotate > 90 CCW
- Choose Filter > Stylize > Wind. Repeat the same operation by pressing COMMAND+F.
- Choose Edit > Transform > Rotate > 90 CW
- Choose Filter > Blur > Gaussian Blur. Set Radius 1.5 pixels.
- Choose Image > Adjust > Hue/Saturation. Activate Colorize option, set Hue 40, Saturation 100. Create a Duplicate Fire layer(Layer > Duplicate Layer).
- Selecting the Fire Copy layer choose Image > Adjust > Hue/Saturation. Set Hue to -40.
- Set Blending mode of the Fire Copy layer to Color Dodge.
- Merge down with the Fire layer by choosing Layer > Merge Down.
- Selecting layer Fire, choose Filter > Liquify.
- Using Warp tool, brush size 50, brush pressure 40, drag flame up in curved paths.
- Repeat above operation using brush size 30, brush pressure 35. Click OK.
- If necessary start over from the beginning by pressing ALT and clicking Reset.
- Move the text layer to the top and make the text color black.
- Save the file as 025_ TASK16A.PSD and 025_ TASK16A.JPG

FOR SPACE:-

- Create a new file 600 by 400 pixels and background color as Black
- Choose foreground color as #18323a
- Choose Filter > Render > Clouds
- Create a new layer and fill it with black. Name the layer Stars
- Choose Filter > Noise > Add Noise. Set Amount 30%, Gaussian, Monochromatic.
- Choose Image > Adjust > Levels. Set Input levels at 160, 1.55, 255.
- Change blending mode of Stars layer to Screen
- Write the text SPACE using White color and font closer as like in image, size 100 pt.
- Use Color Overlay of black color

- Use Drop Shadow, color #008ac5, Screen, size 5 pixels, 64% opacity
- Use Inner Shadow, color #54a4ff, Screen
- Use Outer Glow, color #008ac5, Screen, spread 4%, size 100 pixels.
- Use Inner Glow, size 5 pixels.
- Save the file as 025_TASK16B.PSD and 025_TASK16B.JPG
