

WORKING WITH ACTIONS & ALIGNMENT

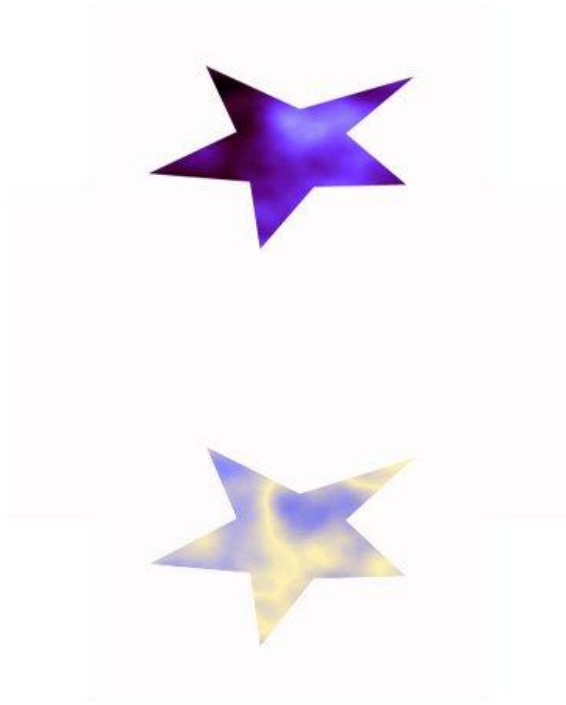

Name - **Manas Pratim Biswas**

Roll No - **002011001025**

Procedure for Star

- Open the texture.TIF file in the Photoshop
- In Actions palette choose New Action and name it Star. Click on the Record button.
- Using Polygonal Lasso tool, create a star shaped selection. Invert selection and press DEL. Press CTRL+D to deselect.
- Click on the Stop Recording button.
- Open file texture2.TIF in Photoshop.
- In the Actions palette select Star and click Play button. The recorded actions are applied onto the second image.
- Change canvas size to combine both textures into a single image (change height to 515).
- Save the files as 025_TASK15A.PSD and 025_TASK15A.JPG

Output Image:

Procedure for Good-Bye:

- Open file goodbye.psd in Photoshop.
- Click on the checkbox closest to the “Good” layer title. This layer is linked to the active “Bye” layer.
- Choose Layer > Align Linked > Top Edges. The linked layer’s top edge will align to the top of the currently selected layer.
- Undo changes by Edit > Undo and try other options in the Align Linked menu.
- Use the Move tool to observe the effect on linked layers.
- Save the files as 025_TASK15B.PSD and 025_TASK15B.JPG
