

Restoring Old Photographs

Name - **Manas Pratim Biswas**

Roll No - **002011001025**

Procedure

- Download and Open the file CHEERS.TIF in Photoshop.
- Create a new Adjustment Layer by choosing Curves function
- Set a white point by clicking the white eye-dropper tool on the white part of the window.
- Set a black point by clicking the black eye-dropper tool on the dark area just above the lady's elbow.
- To remove the Greenish tint, select Green channel and move the middle point of the curve 5 to 6 increments to the right and down.
- To remove Bluish tint, select Red channel and move the middle point of the curve 5 to 6 increments to the up and to the left.
- Remove white border around the image using the Crop tool.
- Save as 025_TASK10_Before.PSD and 025_TASK10_Before.JPG.
- Remove the Person in the background using the Clone Stamp tool.
- Save as 025_TASK10_After.PSD and 025_TASK10_After.JPG.
