MAKING A LOGO OF DAMAC

Name - **Manas Pratim Biswas**
Roll No - **002011001025**

Procedure
- Open Photoshop
- Create an empty canvas of the size 900 px by 600 px and set the Background Color as White
- Select the Horizontal Type Tool and type the letter C. Use the Font Athelas and set the font size to 72 pt
- Create another copy of the letter C and select Edit > Transform > Flip Horizontal
- Select the Horizontal Type Tool and type the letter A. Use the Font Athelas and set the font size to 68 pt.
- Create another copy of the letter A and select Edit > Transform > Flip Horizontal
- Now adjust the letters C and A so that the desired logo is created
- Select the Horizontal Type Tool and type the word 'LABORATORY'. Use the Font Athelas and set the font size to 10 pt.
- Use the Move Tool to freely move the letters and adjust the letters to create the desired logo
- Color the letter C as Green and the mirror image of the letter C as Saffron
- Color the letter A and the mirror image of the letter A as Navy Blue
- The color scheme matches the Tricolor of our National Flag which signifies the patriotism and honest endeavors of the researchers of our country
